Dear _____

The child care delivery system in Monroe County is in crisis. Current reimbursement rates paid for the care of low income subsidized children are the prime cause of this dire situation. I urge you to support increasing these reimbursement rates to Market Rates (actual cost of care as determined by NY State earlier this year)..The net cost to the county for this increase will be less than $500,000 -- the cost of no increase is incalculable in terms of the future of our children.

Sincerely,

_____Name
